

# CHORAL and SINGING Course

17-23 august 2026 | Zaventem

An intensive and challenging week of choral music focussed on singers with previous experience, and willing to do preparatory self-study with pre-provided scores and practice audio files.

## Du holde Kunst

Let yourself be carried away by the stately, sometimes capricious Rhine, past idyllic landscapes and impressive rock formations that inspired many a poet and composer to put their deepest emotions on paper... and to music.

Timeless and moving.

Mendelssohn, Brahms, Schumann and many others are already raring to go.
